

Programmable output module EPGM8

Pin	Description
D1	Programmable output: 500mA MAX
D2	Programmable output: 500mA MAX
D3	Programmable output: 500mA MAX
D4	Programmable output: 500mA MAX
D5	Programmable output: 500mA MAX
D6	Programmable output: 500mA MAX
D7	Programmable output: 500mA MAX
D8	Programmable output: 500mA MAX
12V/GND	Power supply connection pins

Figure 1: EPGM8 Installation Drawing

You should put module EPGM8 in the appropriate holder in the system ESIM262. Remove power supply before adding module to the system.
